DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 29 January 2022 at 05:10 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels will be Low across the UK today, helped by very windy conditions for many regions, especially across Scotland and northern England.

Tomorrow: Low air pollution levels will persist through Sunday, as windy and wet conditions spread across the UK. Later becoming locally very windy across parts of Scotland and northern England.

Outlook: Air pollution levels will remain Low in response to continue unsettled weather across the UK, with often windy conditions.
